Special Service Mid-Winter Fair.

Commencing October 23d, the great Rock Island route inaugurated a daily through tourist car line between Chicago and Los Angeles, via the Chicago, Rock Island & Pacific to Kansas City and Ft. Worth, and thence by the Texas Pacific to El Paso and Southern Pacific to Los Angeles.

BETTER YET.

Arrangement has been concluded to run this car on to San Francisco by this southern route, which is an excellent one in winter season. Remember, this car leaves Chicago daily at 6 p. m. by the great Rock Island route.

The above mentioned tourist line is in addition to the double weekly service from Chicago, Tuesday and Thursday via Rock Island route. Denver & Rio Grande and Southern Pacific through Pueblo, Salt Lake, Ogden and San Francisco to Los [An-geles.

Low rates and excellent service coupled with the fast time made by passengers on these touriet cars, make them as they deserve, very popular.

Any coupon ticket agent can give facts as to rates, and remember second class tickets are accepted on these cars.

ractical Lessons in Charity Incules in the Schools—The Children Thor Look Up the Dustitute and Supply Th with Square Mesis—An Unknown Ber r - Laying the Corner-Stone of a

CHICAGO, Dec. 1.—Thankagiving day is a universal holiday in this city; nor are the pleas of the president and governor's proclamation for those who have little to be thankful for unbeeded. The bunero-lent citizen and "citoyenne" had a large field before them this year, and it may be said that it was covered as well as usual,

CHICAGO PUBLIC LIBRARY.

and that is saying much. The event of mportance to the mental nourishment of the city was the laying of the corper-stone of the new public library building, which ccupies the half block on the west side of Michigan avenue and between Randolph and Washington streets.

Laid Its Foundation Deep.

The estimated cost of the building com plete is \$1,800,000, which is the same as to say that it will cost a good deal more. Ground was broken for the structreu July 27, 1883, and work was begun on an extensive scale at once. The library officers say that there is no building in Chicago which has a foundation that will compare with the one put in for the li-brary. At the point of its location, on Michigan avenue between Randolph and Washington streets, hard pan is no less than eighty feet from the surface of the earth and in some places it is more. Into this hard pan were driven the piles which support the foundation proper, Of course no piles could be found which would reach that depth, so the earth was excavated deep enough to enable the piles when driven in the bottom of the excava-tion to-reach the hard pan.

Grand Army Memorial Hall.

Not alone as a library is the building of interest. In the north end of the first floor will be a G. A. R. memorial hall. The library portion of the building will contain the regular public library of the city, which is now in very cramped quar-ters in the top floor of the city hall. The cornerstone was laid in the afternoon at at the southeast corner and really marked the end of laying foundations. The exer-cises were very short and simple. Chair-man Bernhard Moos, of the buildings and grounds committee, presided, Mayor Swift unde a few remarks and Rabbi Emil G. Hirsch and Daniel L. Shorer, who was a member of the library board of directors twenty years ago, deliveted brief ad-dresses, and the stone, containing the cus-tomary documents with the president of the cus-tomary documents with the president of the customary documents, pictures and souvenirs, was placed in position. It is expected that the library will be completed and in active use within the next two years. There was a large throng present at the ceremonies.

THE DESERVING ALL WELL FED.

any Amount of Turkey and Other Neces

saries Distributed.

Times are hard, but so thoroughly has the philanthropic citizen done his work that it may be said that no deserving resident of Chicago need go to bed hungry today. One of the most comprebensive efforts in behalf of the poor was made by the pupils of the public schools. been busy during two or three days accumulating provisions of all kinds, clothing and money, and these were distributed ong those who are in need. For a week the children had been looking up cases of destitution, and they knew where their charity would do the most good. In many of the schools there were pupils who were themselves in need of aid, and whose parents had no means with which to secure the delights of turkey and cranberry sauce and mince pie, but they were not forgotten.

The purse strings of the philanthropic were open, and one or another of the various institutions of almsgiving did not permit any of the deserving poor to suffer. At the headquarters of the various aid socie ties there had been a continuous inflow of good things; the outflow was equally re-marked. At the homes for children the tots were given a feast of good things, and even the commissary department at the county jail gave the prisoners something to be thankful for, providing a better dinner than usually falls to the lot of the male-factors behind the prison bars,

Many churches made the occasion one of helping the poor, and from the congregaturkeys and other good things for the en joyment of the less fortunate ones. Most of the churches also held special services, and where they did not their congregaand where they did not their congrega-tions united in union services with other churches. The lodging houses for poor men and women on the west side did not forget the day, and at one, the "Friend-ship," there was a feast fit for a king, and probably 800 guests. Among those specially invited and who were present at this fehst were county officials, aldermen and jus-tices, and honorable judges of the Cook county courts. The menu began with blue points, and closed with ice cream, while Nevins' band supplied music. At this house a meal can be got for 15 cents.

Probably the private generosity that will reach farthest is the one by which every widow with little children in this city who saw the widely published notice of the distribution was supplied with a turkey and a basket of groceries today at the Deaconness Home, corner Dearborn avenue and Ohio atreet. This was the work of a man who does not believe in letting the left hand know what the right hand does, and even the reporters do not know who he is.

Will Make 3,000 Men Idle.

VALPARAISO, Ind., Dec. 1.-When the workmen on the work train of the Pitte irg. Fort Wayne and Chicago railr burg, Fort. Wayne and Chicago Fairroad returned from work they were notified that an order had been issued to retreach and the train would be laid off. Forty men will be thrown out of work in this city. This order was issued to all work trains between Pittaburg and Chicago, and will affect over \$,000 men.

Blaice Pascal, who wrote a remarkable trustite on the laws of sound, was constantly observing the familiar occurrences about him, even as a boy. When he was only 10 years old, he sat at the disner table one day striking his plate with his knife and then listening to the

"What are you doing with that plate, Blaise?" asked his sister.
"See," he replied. "When I strike the plate with my knife, it rings. Hark!" Again he called forth the sound. "When I grasp it with my hand so," he continued, "the sound ceases. I wonder why it is?"—Youth's Companion.

"I thought shy tride-bed to have decked, swee And not have strewed thy grave."
